- Spigot walls are engineered with Honeycomb Technology™ for unparalleled strength
- Integrated LED core in the base of spigot for simple light installation and replacement
- Surface mount installation (top down)
- Matching cover plate made of 316 stainless steel
- Stainless steel reinforced shim plate to disperse the load of contact
- 4mm hex head machine screws for tightening glass
- 25 Year Limited Warranty

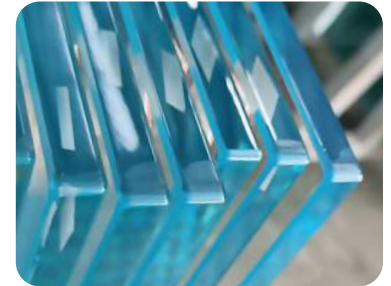

## IG Railing Lighting

- Plug & Play design
- 15 colors with 4 different mode settings
- WiFi capable adapter
- Replacement LED globes
- Replacement RGB controller

### Lighting Kit Includes:

- (1) Transformer
- (1) Antenna signal
- (16) Light leads
- (1) Remote
- (16) LED's
- One Year Warranty
- (16) Light extensions

## IG Railing Glass

1/2" tempered glass for 36" & 42" rail heights available

- **Glass Widths:** 24", 36", 39", 42", 45", 48", 54".
- **Low Iron Glass:** Stunningly clear because it contains less than 1/10 of the iron present in typical clear glass. Traditional float glass will not be suitable to carry light and is not recommended to be used.
- **Dramatic Edge:** As its thickness increases, low iron glass gains a distinctive blue edge, while the transparency of the glass remains ultra-clear.
- **Customization:** is possible with glass etching services and glass etch acrylics to personalize or logo individual projects.

180-DEGREE GLASS CLAMP

ADJUSTABLE GLASS CLAMP

D - GLASS CLAMP

## IG Railing Connectors

- Made of 316 stainless steel
- IG connectors are substantial to support glass to glass connections in lineal, corner and post or wall connections
- Available in polished stainless steel and matte black
- 25 Year Limited Warranty

## IG Available Top Rail

- Made of 316 stainless steel
- Available in polished stainless steel and matte black
- 3 meter lengths
- 25 Year Limited Warranty
